THE VOICE OF SOUTHERN NEVADA'S CONSTRUCTION INDUSTRY

FEBRUARY 2021

JAMES BRISTOW, PE

NOVA THRIVES AS PART OF THE UES FAMILY OF BUSINESSES

NOVA Geotechnical & Inspection Services joined the **Universal Engineering Sciences (UES)** family of businesses last year, becoming a recognized national leader in geotechnical engineering, construction materials testing, building code compliance, threshold inspections and environmental consulting. UES pioneers groundbreaking geotechnical solutions for our valued clients and develops trusted client relationships that stand the test of time.

UES Western Regional President James Bristow, PE, oversees the growth and development of UES' business offerings in the Western U.S., an area of tremendous opportunity, and shares "We are making significant contributions to our industry and creating a lasting, positive impact in the communities where we live and work by providing the highest-quality geotechnical engineering services through superior client service, and by continuing to be an engaged community partner to all stakeholders."

Our leadership team with nearly six decades of experience, and service-oriented culture remain at the heart of who we are and provide a strong foundation for our continued growth. UES serves clients from coast to coast, working from 33 offices with more than 1,700 highly skilled professionals. We operate as one team across all of our locations, offering some of the industry's best engineering talent, resources, and relationships.

We appreciate your business, value your trust, and look forward to continuing to provide industry-leading consulting, inspection, and testing services on your projects. Please contact us if we can assist you with any of the following services:

- Geotechnical Engineering Services
- Construction Materials Testing and Inspection Services
- Building Code Compliance Services
- Environmental Services
- Facility Consulting Services
